Tacchini

Tacchini has been creating timeless furniture and accessories since 1967. Renowned for its refined design philosophy, the brand combines respect for tradition with openness to innovation. Its collections, distinguished by classic design taste and impeccable quality, express a language in delicate balance between formal rigor and poetry, understatement and boldness, sophistication and simplicity. But for Tacchini, style is above all a state of mind. It manifests in respect for people, materials, craftsmanship, the environment, and history, in continuity with the teachings of the great masters.

Founded in Seveso, in the production district of Brianza, the company established half a century ago by Antonio Tacchini is today a reference point for Made in Italy. Under the guidance of his daughter, Giusi Tacchini, CEO and Art Director, it continues to interpret its original values through collaborations with international designers and local artisans: an extraordinary synergy that enhances the unique ability of Brianza to transform ideas into products of excellence - the icons of tomorrow. The objects created by Tacchini are unmistakable, but their understated elegance never steals the spotlight. They are discreet and reliable companions, ready to adapt harmoniously to the environments in which they are placed and to the lives of those who choose them. With their unique stories, they become part of someone else's history.

Between past and present

“At Tacchini, great design classics and contemporary pieces coexist in a constant dialogue. These two souls merge and respect each other, creating spaces that embody a classic and recognizable style, perfectly balancing between modernity and timelessness.”

Giusi Tacchini, CEO & Creative Director

Butter Sofa

“I wanted to create a chair as comforting, and as tactile as soft butter. Modelling with slippery fingers, the modular Butter Sofa appeared. Every-day life is a thing of beauty. Sometimes you need go no further than the breakfast table to find meaning. Slice a loaf of bread. Look at it from a new perspective.”

Faye Toogood

Butter Sofa is a soft and sculptural modular sofa, shaped from a lump of butter. It is part of the Bread and Butter collection created in collaboration with Faye Toogood. In keeping with the experimental spirit and unconventional creative processes of the Toogood studio, the Butter Sofa takes shape from a lump of Cornish butter moulded by slippery fingers. Generously padded — soft, tactile, and comforting, just like butter — the sofa rests on large volumes reminiscent of building blocks, modular and easily reconfigurable.

Faye Toogood

Faye Toogood is one of the most original voices in contemporary design. Growing up in the English countryside, she began her career as a stylist at The World of Interiors before founding an interdisciplinary studio in London, where she collaborates with architects, sculptors, and illustrators, including her sister Erica.

She has always rejected being confined to a single discipline and now works in interior design, home objects, fine arts, and fashion, sharing with her sister a passion for experimentation and craftsmanship in telling stories that blend Faye's interest in materials with Erica's tailoring expertise.

Faye Toogood's approach is based on a deep love for materials, very tactile and unpretentious. Guided by an infallible instinct, she mixes ideas and experiments alongside her collaborators, free and without labels, much like herself. Much of her work is dedicated to creating something beautiful from simple and everyday materials, easily found everywhere. The landscape of her childhood also continues to permeate her projects, whether it's a bronze handle cast from an abandoned skeleton, a fashion collection inspired by hay bales, or the interiors of a house painted with the palette of an English sky.
