

LE MURA XL

MARIO BELLINI

Tacchini

Tacchini has been creating timeless furniture and accessories since 1967. Renowned for its refined design philosophy, the brand combines respect for tradition with openness to innovation. Its collections, distinguished by classic design taste and impeccable quality, express a language in delicate balance between formal rigor and poetry, understatement and boldness, sophistication and simplicity. But for Tacchini, style is above all a state of mind. It manifests in respect for people, materials, craftsmanship, the environment, and history, in continuity with the teachings of the great masters.

Founded in Seveso, in the production district of Brianza, the company established half a century ago by Antonio Tacchini is today a reference point for Made in Italy. Under the guidance of his daughter, Giusi Tacchini, CEO and Art Director, it continues to interpret its original values through collaborations with international designers and local artisans: an extraordinary synergy that enhances the unique ability of Brianza to transform ideas into products of excellence - the icons of tomorrow. The objects created by Tacchini are unmistakable, but their understated elegance never steals the spotlight. They are discreet and reliable companions, ready to adapt harmoniously to the environments in which they are placed and to the lives of those who choose them. With their unique stories, they become part of someone else's history.

Tacchini

Between past and present

“At Tacchini, great design classics and contemporary pieces coexist in a constant dialogue. These two souls merge and respect each other, creating spaces that embody a classic and recognizable style, perfectly balancing between modernity and timelessness.”

Giusi Tacchini, CEO & Creative Director

Le Mura XL Sofa

Three years after the reissue of Mario Bellini's original project, Tacchini enhances the natural comfort of the Le Mura collection with a new XL version: the depth of the seat is increased, and together with the new, soft cushions that can be moved freely, it introduces a new, more intimate and homely dimension to enjoy its comfort in the company of friends and family. Le Mura XL also highlights the versatility of the original design with additional modules - corner units and chaise longue - that allow for the creation of larger configurations.

Reissued by Tacchini in 2022 while respecting its free and innovative spirit, Mario Bellini's Le Mura represents the manifesto of 1970s radical design, addressing questions of aesthetics, proportions, and ergonomics, as well as deeper issues related to social, ethical, and moral content. The result is a project that unites modules of different shapes and sizes in virtually infinite configurations without ever losing the inexhaustible energy that characterises it, both today and in the past. Far from being just a sofa, Le Mura focuses on modularity, which is already expressed in the name, referring to the large stones that made up Roman walls and can, like the system's elements, theoretically be joined endlessly to fit into spaces of varying dimensions.

Mario Bellini

Mario Bellini lives and works in Milan, where he graduated in architecture from the Politecnico in 1959. Internationally renowned as an architect and designer, his work spans architecture, urban design, furniture, and industrial design. He has received numerous awards, including eight Compasso d'Oro prizes from ADI, and has lectured at leading cultural institutions around the world. His works are exhibited in several museums, including the MoMA in New York, which holds twenty-five of his designs in its permanent collection. Mario Bellini views design as an integrative act that unites function, aesthetics, and the relationship with the environment to transform an object into an element that, while meeting practical needs, becomes part of a larger narrative: that of people's everyday lives.
